Out steel nails appear destined to superseda the ordinary common from cut nails as completely as the modern poluted screw nail has the old fashioned blunt screw nail. The cost of the steel cut is not much more than that of the iron rut nails, and in quality and finish they are full equal to the best hand-made nails. It is surprising that they are not more generally known to wood workers.

Regarder Season, 1885 Special Notice.

BOGUS BUTTER.-William Dunber, who was prested on complaint of pairy Commissioner W. W. Baker for having decomargarine in his ossession, states that he his not sold any of the title for months and could not sell it if he lished to. He had a few packages left over of tot shipped to him some time since. The ar-

wished to. He had a few sackages left over of riot shipped to him some time since. The arrist was made not for selling the staff but for laying it in his possession without heing properly labeled. Mr. Baker's researches into the butter question have taugh, him that it is almost or quite impossible to distir guish between good butter and butterine or obsemargarine. He had samples of butter and oleonargarine in his possession the other day and submitted them to a groundent dairyman, who if fer inspecting them selected the oleonargarine as the butter. The only way in which the true butter can be sold from the bogus is by a chemical analysis. Our chizens are not likely to be imposed upon any more for a time, as the dealers who have been landing butterine and oleonargarine have promised the commissioner that they will not import any more. There has been a great deal of this stuff sold and used here of late and it has been a serious detrument to the butter trade, as many people have stopped using butter altogether, as they had concluded that they were supplied with the bogus article entirely. Mr. Dunhar's case will come up for examination in Justice Bybe's court at 10 o'clock this morning.

LIKE A GETUE BOOK.—Yesterday Mr. W. F. Catson, tayeding access of "A. Northern and the serious determined access of "A. Northern and the serious description of the serious court at the content of the morning.

LIKE A GUIDE BOOK .- Yesterday Mr. W. F. arrived from St. Paul, and it was like reading a guide book to heat him tell about the trip. He seems to have written a liften infund electure on toute, and begins with a weird description of lite bleak winter at St. Faul, the leadless trees and dead grass of Muncaota which he lifenes into the declining years of a man's life; then he goes into poetry over the wheat fields of Intesting, which through the agency of human osenives are listing turned from somber, lifeless gray and brown to living black. He sayes the grand figures of speech for the mountaine, and when he strikes the combination of cliffs, isomitains, verdure, water, flowers and trees between The Balles and Portland, he gots into a burst equaling Bayard Taylor's 'amous description of the Santa Clara valley. I' the O. R. & N. lense ever is made and the general passenger agent. He would make any applicant for information self the last dollar's worth of his possessions to get to this favored land.

A PIONEFII FLUME. - Mr. S. Haines of Nevada is visiting this section to make investigations concerning the flume built by Mr. Collins at his landing on the middle Columbia about twenty

landing on the middle Columbia about twenty years ago, to bring down, contwood from the mountains. The tunne will be remembered by all who have traveled on the middle Columbia since that time. It was the first fitume built in this country for the purpose of rating wood or lumber, and now, after all these pears and when the man who invented it is dead, it has become a thing of considerable importance to people whom he never knew or heard of. It seems that Mr. Haines built a similar time in Nevuda and optented it. Another man built one like it and Haines has brought satt against nim for infringing his latent. The table that Mr. Collins constructed and operated his flume before anything of the kind was thought of in Nevada will have an important bearing on the case.

e case. The Proposely Joint Lease.—Somehow or other, the joint lease of the O. R. & N. to the Northern and Union Pacific does not seem to Northern and linkon Pacific does not seem to materialize as fast as reports early in the week indicated it would. As every one knows, there are any number of little details that have to be settled in advance. If all the 0, R. & N. Co.'s properly consisted of railroad lines, the matter might have been arranged before this, but there are steamships, and and an interest in a hotel foundation, and a narrow gauge lease. But the sticking point tetween the lesses companies, no doubt, will be the division of territory. This is the general impression in railroad and business circles here. We had a year ago what seemed to be definite information that there would be a lease to the Northern Pacific, but it did not panout, and now, a good reany are inclined to think, that like the Anglo-Russian war, the joint lease will not be a "go."

INLAND EMPRE CROPS,—Hon. Philip Ritz, of

lease will not be a "go."

INLAND EMPRIE CROPS,—Hon. Philip Ritz, of Walla Walla, arrived here yesterdny. To an Orbitonian reporter who inquired concerning the crop prospects of the inland empire, Mr. Ritr said: "The upper country needs rain badly enough, and in a few localities the crops are already injured to some extent, but it is very remarkable how the crops in most places in the moland empire are standing the drouth. I don't think that there is norther country in the world where grain will continue to grow and mature without rain for three monthes it a time. For ing the thirty-five years I have spent on this coast, I have never seen a May without some ruin, and I still hope for pienty of rain in this at the next month. If it these come we will have a fair crop yet, and if it comes within ten days the crop will be over average."

aye the crop will be over average." QUITE A CONTRAST.—At the works of the North Pacific Monulacturing Company may be North Pacific Manufacturing Company may be seen a vehicle made for M. V. B. Staey, of North seen a vehicle made for M. V. R. Stacy, of North Yukima. It is a light two horse buggy, for one grotismant; axle three-matters of an inch. As usat a job as one would dare to look upon. To le weight, 175 pounds, neluding pole. Those who saw the largey resterday say it is equal to Browster's lest. Contracted with a log wagon made for and shipped by Staver & Walker to Southern Oregon a few days since, the weight of which was over three home and the capacity of which was over three home and the capacity of which was eight tons, we should say that there is nothing in the why of vehicles but what could be made at this factory. The manager, Mr. Wesley Jackson, reports orders at the present time as large as at any period of the company's existence.

He periods the same of the same of the company's existence.

Hereiassia Issane.- Yesterday Van H. De-H. PELASSAL INSANE. Yusterday Van B. Be-Lashmutt arrived home from Anaconda, Montana, where he has been booking after the Jusiaers attairs of Bridget of lingher, who is in the insane asylum at Warm Springs. She is hopelessly incane and is not expected to live long. Mr. Belashmutt Book charge of some valuable diamonds and other portable proparty belonging to his client and caused a gnardian to be appointed to attend to be property at Anaconds, where she owns sixteen buildings, bringing a monthly readal of \$750. Her mada is the idea that some one is trying to rob her, which is not altogether unreasonal le, as Lavin is at Masconda. The asylum and contains ulueteen female and ninety-six male patients.

As the train rolled out of the exporate limits of that hyperborean city, Mr. Carson saw in the western sky a bright streak, and pointing it out to a friend, he said, "over there is dregon." He saw no frees in foliage nor much vegetation till he reached Spokane Palis and Portland seems to him, after his long journey, as the promised land did to the children of ferael. He says Gregon is the country.

ASSED TO PAY FOR THE HARRY—The North-

ASSED TO PAY FOR THE HORSE.-The Northagainst the Multionnal street railway to recover \$200, the alleged value of a n agnificent draught horse, which was kleed by a vicious animal belonging to the defendants, and, his leg being broken, had to be killed. The transfer company's horse was one of a term that was drawing a load of rais into the street railway barn, and was kicked by the other horse, which was being brought out, just as they passed in the doorway. It will be quite interesting to learn the result of this case. Many people are anxious to know to what extent a man can be held responsible for injury done by a dimestic or other animal which he owns.

To Supply Sureries .- The American Surety To Supply Supply the American Surety Company of Now York, of which the Hon. Richard A. Elmer, late assistant postmaster general, is president, has appointed Mr. F. V. Autrews their agent in this city. The business transacted by this company supplies a great pressing want, and is desirable, on public as well as private grounds, and diready the Northern Pacitic railway and the O. R. & N. Co., besides other isading comportations, have availed themselves of guarantees for their employed. The company will shortly be able to not as surely on bonds required by our courts, having been

INCREASED INSURANCE RATES.—The rate of the Columbia river for the United Ringdom or continental ports was mised this week to I per cent. In other words the companies insure against the acts of "the public enemies of her Biddomic unajesty" for this extra 4 per cent. The regular rate is 2½ on iron vessels, making the total insurance for the voyage 3½ per cent. If there should be no wur the extra, 1 per cent, is clear gain to the insurance company and dead loss to the cargo owner. But if England and Russia should light, 1 per cent, extra would be very cheap insurance.

HOUSE WARMING.

ROUSE WARMING.

The house warming given by the laules of Taylor street church last evening was a complete success. The parlors after their recovering have a most genial, home-like look. The floors are carpeted and chairs have taken the place of the long time remembered benches.

The opening selection was a cornel solo by Prof. Harrell. Mass helie Gates next sang in an accentable manner "When the leaves Regin to Fall. Mr. Wefzell read in amorting selection, entirely have provided the children as well as the old subject to the fell of the children as well as the old subject to the fell of the children as well as the old subject to the fell of the children as well as the old subject to the given in Mrs. Verzell reader." In a manner that ref. It in the part of the most given in Mrs. Verzell of them samp "No Hope Betweet as acceptable to by a boating song. Mr. Relativel so accept to by a boating song. Mr. Relativel the authorship of this poem is still in doubt. Prof. O. E. Harrell next rendered a vocal soid. A onet by Mr. and Mrs. Verzell followed and was recreated with prolonged appliance. Prof. Schuck next gave the audience on excellent plano salo, which showed the power of the new joine, in terry pleasing and satisfactory manner.

The correction will long be grown and events lead at Taylor street church. The attendance was large.

A Detroit firm employed a new collector a few days ago, and among other things he was given one which had long been classed under the head of "doubtful." He was informed that the clances of his getting anything were extremely dutiness, but was promised half of all he could collect. In two hours after starting out he was back with the money on the doubtful bill, and when taked how he succeeded so well he replied

Secondly, never smoke on an empty stomach smoke after huncheon, or after dinner or supper, but do not smoke long after you have taken food, or early in the morning. A light capar after a hearty meal frequently aids digestion, but if one smokes just before eating, the appetite will be lessened and the food will lose its reliably. Thirdly, do not smoke the whole of a cigar Sacrifice a fourth or fifth, because in the stu np the poisonous oll or nicotine of tobacco becomes concentrated.

These tules are few and simple, but it follow ed they cannot fail to be of lasting benefit to every smoker.

Tables in rand on Beecher

Jun's Hernick tells the following story which was related at the Rev Henry Wani Beechet's expense in one of his lectures he referred, as he is accustomed to do, to a don-estic scene which occurred when he was a boy in Litch field, Conn His father was one day visiting a partishener, and noteed in his pesture a partacularly fine looking calf. Referring it the excellent qualities, the harmer, knowing the animal, said, 'Dr Beecher, you may have that calf if you can catch him?" The minister at once accepted the challenge, and when Lyman Beecher set for himself a task hensually accomplished it. With it much reference to ministernal dign by he are existent manning the calf down. Tying his lega, he carried him home in his wagon and placed but securely in the bair. Telling the family of the adventure, Henry started for the barn to see the friesk gainal. With the usual carelessness of a boy, he permitted the calf to secone Pour the hear.
